**Plaintiff Young' s Response to Defendants Objections to  
Plaintiff' s Witness and Exhibit List.**

The Plaintiff Deirdre Young files her Response to the oppositions filed by the Defendants and Temporary Solutions (ECF 48) and Washington Gas Light Company (ECF 49) to Young's Witness and Exhibit List (ECF 46).

In Young's Witness and Exhibit List, Young identified 50 exhibits and 11 witnesses (plus all witnesses identified by the Defendants). Both Defendants did not object to any of Plaintiff's witnesses.

Both Defendant's did object to Young's documents/exhibits identified, specifically that not all of the page designations for exhibits : 2, 3, 6, 10, 17, 20, 26, 33, 34 and 39 were identified. To that end, we agree with the page designations identified by Temporary Solutions for the aforementioned exhibits and incorporate the page designations identified by Temporary Solutions. Washington Gas Light had also raised similar objections to the aforementioned exhibits identified by Temporary Solutions, and once again, agree to the page designations

identified by Temporary Solutions. Washington Gas had also objected to the description of some of the documents as “argumentative,” we will therefore describe them in neutral language, where possible.

We will deal with any other objections on the grounds of relevance at the time of trial and/or at the time of any motions in Limine.

Below is the revised exhibit list, taking into account the objections made by the Defendants.
